

CHRISTOPHER LANDRY

Software Engineer

SUMMARY

Full stack software engineer with a strong drive and passion to succeed as shown through my dedication to professional running which resulted in six national championships. These characteristics will accelerate my integration into your team and environment.

PROFESSIONAL EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like Scrum for project management

Recent Paid Client Work & Projects:

Jonah's Paper Review (JavaScript/Node.js/Express/MongoDB) – Authors login and upload papers for review. Reviewers approved in the subject area automatically receive an email alert that there's a paper they can review, and then upload a review form.

Running Training Plan Generator (JavaScript/Node.js/Express/MongoDB) – Runners can put in information about themselves and their desired training plan and a personalized training plan is generated for them.

PokerNow Player Tracker (Python/Flask/MySQL) – Users can login to their account and upload ledger files to track player's results across all games uploaded with a searchable and sortable dashboard deployed on AWS.

Charlotte Astrophiles (HTML/CSS/JavaScript): An astronomical visualization website that integrates NASA API's including photos from NASA's rovers, NASA's APOD, and the current weather on Mars.

Entrepreneurship | Charlotte, NC

January 2018 — Present

Ascent Running Coaching - Developed multiple websites with incorporated payment and video call booking. Created and managed daily training schedules for up to 30 athletes at a time. Hosted a summer camp for high school cross country runners.

Christo's Consulting - Created websites and product integration for clients and consulted on SEO and social media strategy.

Professional Runner | Charlotte, NC / Ann Arbor, MI
